Ali_Hasan_Khan

Google pixel (should I buy or scam)

خریداری گائیڈ | Buying Guide

Chat I am getting Google pixel 7 pro 256 gb for around 80k and 128gb for 70k. Also he has offered me google pixel 9 for 125k (128gb ig). I need help here. However I am using this link for inspection. Is there any other inspection let me know and let me know if prices are alright.

<https://www.reddit.com/r/PakistaniTech/s/BJeW3M60ED>.

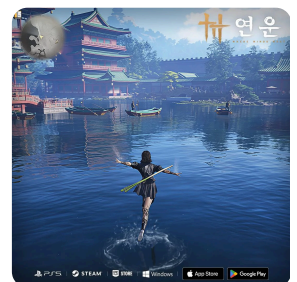

Pictures for both are attached.

bhai dont buy cpid or patched phone !

go for official PTA Approved !

within 1 month there will be official PTA approved pixel 8 will be availabale for eighty thousand so better wait a bit and buy newer model.

also refer Zubair Raz on youtube to get all your doubts cleared.

Ali_Hasan_Khan OP • 3mo ago

However these are PTA phones. Will surely look at this one too.

[deleted] • 3mo ago

EmotionalOpening171 • 3mo ago

U are getting good rate for cpid id personally get a 256 gb p7p and try te negotiate to 78k but ovarall at 80k still a good deal.

But 8 pro will soon drop 10 to 20k so wait if u can.

Current 8 pro rate is 90k

SherbetSuperb • 3mo ago

Where will these pixel 8s be available?

Routine_Elephant_212 • 3mo ago

Following

EmotionalOpening171 • 3mo ago

1 or 2 months but avoid 8 as it has line issue

Routine_Elephant_212 • 3mo ago

Then for 9 we shall have to increase the budget

EmotionalOpening171 • 3mo ago

No pta stock is coming and i would suggest getting cpid 9 or official pta 8 pro for 130k or cpid 8 pro or official pta 7 pro under 95k

Routine_Elephant_212 • 3mo ago

**EmotionalOpening171** • 3mo ago

It is the best pick but if ur not in a rush u will get it for 10 to 20k less if wait till jan

**Routine_Elephant_212** • 3mo ago

Shall surely wait for it Currently using pixel 5 Got its panel changed once. Coz pixels are just love to use. The best thing about pix 5 is its smaller size

**EmotionalOpening171** • 3mo ago

Great call. Pixel 5s have ass panels in terms of durability my friend has his panel rupture due to under screen earpiece speaker.

More replies

**Comprehensive_Job74** • 3mo ago

how'd official approved be available within a month? and what about pixel 9?

**Imaginary_Sky_4696** • 3mo ago

PTA issues TAC mobile list for importers every month or two which includes the subsidized tax rates for bulk importers. they have just added pixel 8 and 9 alongside Apple 15 phone to the list 2 days ago. this will result in heavy import of these models.

i just said to refer zubair raz so you get updated daily basis.

ALSO there are many fraud in PIXEL devices so beware of those, again i would say refer to zubair raz he just torn all those fraud sellers of the market

**Impressive-Agent-661** • 3mo ago

what does this mean base iphone 15 will get cheaper ? pta approved one ?

**Imaginary_Sky_4696** • 3mo ago

yes, 15 tax has been reduced to 70000 from 110000 for importers.

**Impressive-Agent-661** • 3mo ago

so i can get a used jv one in 70k?and this will take effect in 1 month ?

Wait so will we see iphone 15 etc pta approved like the 13's being sold these days? The 13's being sold these days at various stores are pat approved and around 140k. So can you confirm whether 15's would be near this bracket and have 100 battery health etc?

**Imaginary_Sky_4696** • 3mo ago

yes, 15 tax has been reduced to 70000 from 110000 for importers.

**mightyvoice-**  • 3mo ago

Thanks for the reply. I may finally get this 15 now as the 13's are too old for their price

**Imaginary_Sky_4696** • 3mo ago

if seller tells you that he trade in 100% battery health iphones, he's probaably leing as these phones are previously been abused.used in some way or the other.
also kit phones never have 100%,

**mightyvoice-**  • 3mo ago

There's this hf-store in lahore which is se-lling Iphone 13's at 100% battery health. They say that they're importing from dubai either refurbished from apple or something that's why it's at 100% bh. What do you think?

**Verse001** • 3mo ago

You're a g if that's true. Waiting to buy the Pixel 8 then.

**PlaYEviL9** • 3mo ago

what will be price of pixel 8 then?

**PlaYEviL9** • 3mo ago

thank you for informing about this news bro

**Emergency-Memory5847** • 3mo ago

[Skip to main content](#)[Create](#)**Routine_Elephant_212** • 3mo ago

Kidr aengy 8?

**PlaYEviL9** • 3mo ago

I can buy Official PTA Approve Box pack, Pixel 8?

**Yoanai** • 3mo ago

Official approved for 80k? Please share context

**Wise_Alternative6140** • 3mo ago

Bought several cpid phones with no issues, friends and family have several with no issues also, just get what's in your range.

**Imaginary_Sky_4696** • 3mo agoget what comes in range until it gets blocked. *NICE***Wise_Alternative6140** • 3mo ago

Patched phones can have problems, but I've neither had nor ever heard of a CPID phone having problems. It's impossible to revert said phone because, unlike patching, CPID changes a phone's IMEI permanently.

**Imaginary_Sky_4696** • 3mo ago

but CPID also got blocked by PTA ! and can say as it happen to me after s10 5g cpid got blocked!

There's no reason to say cPID wont block, it will in some day or another.

**Wise_Alternative6140** • 3mo ago

I have never heard of that happening, maybe it is happening, it's probably safer then to just get a pts approved one, still not completely convinced but ig it's better to air on the side of caution.

**Busy-Reveal-9077** • 3mo ago

said who?

[Skip to main content](#)[Create](#)

and I'm willing to wait.

ComplexTell25 • 2mo ago

Hey. Did the prices go down or not?

Imaginary_Sky_4696 • 3mo ago

adding a link to Zubair Raz, better refer to him before making any decision.

<https://www.youtube.com/@ZubairRaz>

No-Highlight-2322 • 3mo ago

Bro please don't buy it. Buy official pta approved. I bought 128gb 7pro for 85k.

Slasherly • 3mo ago

Why

armujahid • 3mo ago

Top 1% Commenter

Is there any online vendor selling PTA approved pixels? Or did you buy from a physical shop?

[deleted] • 3mo ago

naveyy13 • 3mo ago

Pta official lelo ab kuch models pe tax kum hote for sellers , especially a models . Also buy from a trusted person because pixels models refurbished boht hote market mein.

Yasharkhan • 3mo ago

Don't buy the pixel 8 unless the display is from Samsung. The pixel 8 with the boe display will have a green tint within a few months of use.

Khubaib_AS • 15d ago

And how do you know if the display is from Samsung or not?

[Skip to main content](#)

Create

It's BOE.

These sellers mention PTA, always ask if it's official approved or patched, these patched phones are not worth it, often there are ROM/Firmware issues too on some devices, recently someone I know was complaining about a Pixel 8 often rebooting on its own, I remember this S23, it lagged way too much in settings for some reason, though some devices might even work perfectly, then there's a caviat of duplicate IMEI blocking by PTA, meaning often these patched phones get blocked by PTA, my suggestion is buy anything with low official tax e.g a BBK electronics phone (Oppo, Realme, Oneplus, Vivo+iQOO) All there phones are great and honestly I prefer ColorOS/OxygenOS over any other android, Currently on Vivo funtouchOS its similar but not as good, for some reason BBK has separated Realme,Oppo and Oneplus aside from Vivo+iQOO but it's sorta good they often complete each other, Xiaomi phones are the cheapest, but buying a phone cheap to tolerate ads is not worth it in my books although below 50k I'll always recommend a Xiaomi/Redmi

abdurehmann • 3mo ago

- Buy Official PTA Approved (Check by PTA official App)
- To Check Battery, Make 4k 60 fps video for 5 minutes, battery must drop at least 3-6%. (Lesser is good)
- Dial ##7287## to fully diagnose.

Now, Factory reset the mobile and do the steps again. After then, youre good to go iA

Halandkhan • 3mo ago

My brother bought 7 pro 256 (cpid) for around 75k? Good deal or bad?

x0rg_new • 3mo ago

Buy pta approved or else don't buy.

[Skip to main content](#)[Create](#)**Khubaib_AS** • 15d ago

Is there a way to verify all of that?

**BidAdministrative127** • 3mo ago

We got our pixels from HF smartphones. No issues yet.
